DYPA Lifelong Learning Centers

Building Skills for Employment

DYPA operates **7 Lifelong Learning Centers** offering **25–350-hour vocational programs** designed to upskill unemployed individuals and connect them to the labor market.

Training & Facilities

Centers provide accessible classrooms and labs for hands-on learning. Agricultural programs range from **80 to 350 hours**, while other fields offer shorter courses.

Agricultural Programs

Key programs include:

- Aromatic Plants & Beekeeping
- Beekeeping & Olive Cultivation
- Pruning & Grafting

Training combines fieldwork with e-commerce, legislation, and funding guidance.

Quality & Innovation

Centers operate under **ISO 9001, ISO/IEC 27001, ISO/IEC 27701**, ensuring high-quality training and secure data management. Programs blend theory, practice, and continuous assessment.

Workforce Development & Inclusion

Training covers technical trades, retail, culinary arts, healthcare, agriculture, and more. Programs are also offered in prisons to support reintegration.

International Cooperation

DYPA collaborates with universities, cooperatives, and European networks, offering knowledge exchange and study visits.

Career Outcomes

Graduates gain skills for technical, service, and agricultural roles, as well as entrepreneurship and digital marketing of agricultural products.
